

REDS IN IMPORTANT GOVERNMENT POSITIONS?

POWER HOUSE NEXT ADDITION AT PLOW SHOPS

New Structure Will Be Erected North of Present Plant.

With the foundation for the new big three-story warehouse almost in and all material on hand for rapid completion of that building, the officials of the Grand Detour Plow Company Works of the J. I. Case Threshing Machine Co., are devoting their attention to plans and specifications for a large modern power house on which work will be started soon after the present addition, 100x150 feet, is completed.

Announcement that the power house is to be erected was made by W. B. Brinton, former head of the Grand Detour Plow Co., and now a vice president and resident director of the Case interests, to a Telegraph representative this morning. Col. Brinton stated that the new building, which will be of fire-proof and most modern construction, will be erected on the company's real estate holding just north of the present factory buildings. It will face on Depot avenue and will be complete in every detail.

The latest electric power producing machinery will be installed and the plant will be of sufficient size to provide complete power for the enlarged capacity which the Case company has in view for the Dixon Works.

Contractor W. J. McAlpine has been making exceptionally fine headway on the fire-proof warehouse, work on which was started about a fortnight ago. The big foundation has almost been completed, and it is probable the last of the concrete in that detail will be poured by tomorrow evening. Then the concrete and steel superstructure, which will make the building absolutely fireproof will be started.

BRUNDAGE PUTS A "KICK" IN THE USE OF BAY RUM

Case From This City Brings Opinion on "Tonic."

The Chicago Tribune of Sunday published the following concerning a ruling by Attorney General Brundage concerning the sale of bay rum and its transportation in this state, which is of interest here since it appears that the Attorney General was asked for this opinion by Lee County officials:

It seems that in the little town of Dixon, Ill., some dubious persons have been purchasing bay rum and drinking it, and raising Ned. It would appear that the stuff contains 58 per cent alcohol and that it is on sale in certain drug stores.

Now, these tidings came to the attention of Attorney General Edward J. Brundage, through the medium of the state's attorney resident in Dixon, and Mr. Brundage was called upon to give his ideas in the matter. Likewise, in the matter of individuals carrying a bottle of bay rum in their hip pockets.

Brundage's View.

Mr. Brundage, after citing the law in regard to all these things, remarks:

"It is a matter of common knowledge that bay rum is ordinarily used, and intended for use, for other than beverage purpose, and the definition which the act gives to the term 'intoxicating liquor,' clearly indicates that when a liquid is not potable or suitable for being used as a beverage its sale is not prohibited by the fact."

"The character and use of bay rum are well recognized. The possibility of an occasional different use does not change its recognized and established character. It is possible a man may get drunk on bay rum, but in no fair or reasonable sense is it an intoxicating or potable liquor."

A Kick in Verdict.

However, Mr. Brundage believes that "if it becomes reasonably evident to the seller that bay rum is coming into use as a popular tipple, such sale is a violation of the law."

And what he says about the sale of bay rum, says he, can also be applied to the carrying of it "on the hip."

ASSAULT CASE WAS DISMISSED THIS A. M.

Mrs. Lizzie Bondi, residing east of the city had Joe Gabory arrested Saturday on a charge of assault and battery, and when the case came for trial, Mrs. Bondi complained that Gabory had struck her in the face after she had hit him over the head with a shovel.

The trouble seems to have started when Mrs. Bondi and Mrs. Gabory engaged in an argument. The latter called in her husband and then the argument waxed warmer with the above results. The justice listened to a considerable exchange of hot words and finally dismissed the case.

Mr. and Mrs. Stacey M. Green, of Freeport, were visitors with Dixon friends yesterday.

JOHN W. DONAHUE, WELL KNOWN HERE CALLED SUDDENLY

Heart Disease Took Man While His Wife Was in Dixon.

John W. Donahue, vice president of the printing firm of M. A. Donahue, Chicago, who was well known in Dixon, where he had visited many times with his wife, who was formerly Miss Augusta Jordan of this city, dropped dead at the home of his brother, William F. Donahue, 5319 Sheridan Road, Chicago, Friday night. He had gone to his brother's home to visit, while his wife was with relatives and friends in this city, and she was summoned to Chicago early Saturday morning by the news of his sudden passing. Heart disease is believed to have caused his untimely end.

Mr. Donahue, whose home was at 4543 Michigan avenue, was born in Chicago in 1866 and for over twenty years was vice president of the printing firm with which he was connected at the time of his death. He is survived by his wife, four sons, Ambrose, John W., Richard and Thomas; two sisters, Mrs. A. E. Whitaker and Miss Jeanette; and three brothers, William F., Michael A. and Edgar R. Donahue.

Funeral services will be held at St. Elizabeth's church, 41st street and Wabash avenue, Chicago, at 9:30 o'clock tomorrow morning.

The condolence of many Dixon friends of the deceased and his wife will be extended to the children and to the widow, who was called to Dixon during the summer by the death of her mother Mrs. Michael Jordan.

President Better: Digestive Attack Sunday Not Serious

By Associated Press Leased Wire
Washington, Oct. 20.—President Wilson had a very good night, and has recovered from the attack of indigestion which he had yesterday. Secretary Tumulty said today after a talk with Rear Admiral Grayson, the President's physician. While recognizing that even a slight indigestion ailment undoubtedly would have a tendency to increase nervousness and thereby to a certain extent retard recovery, in White House circles today there were no indications that the slight digestive attack suffered yesterday by President Wilson was the cause of serious concern. In announcing the digestive trouble last night Rear Admiral Grayson, Mr. Wilson's personal physician, said otherwise the President's condition was unchanged and indicated that the patient was more than holding his own.

The digestive disturbance has subsided almost completely and he was comfortable today after a fairly good night, his physicians announced.

They issued the following bulletin: "The White House, Oct. 20, 11:25 a.m. "The President's digestive disturbance has subsided almost completely. After a fairly good night he is comfortable this morning."

"Grayson."
"Tumulty."
"Stitt."

Roy Bridges resumed his work at the Downing grocery store this morning after his vacation, which he spent at Kansas City and other Missouri cities.

MAHLON P. BURKET, PIONEER OF DIXON, PASSED AWAY SUNDAY

Death Claimed Aged Resident of Vicinity Yesterday.

Mahlon Peter Burket was born in Sinking Valley, Pa., October 31, 1843 and passed into the Great Beyond October 19, 1919 at Dixon, Ill., aged 75 years, 11 months and 18 days.

He moved with his parents, John Neff and Mary Heck Burket to Dixon, Ill., in 1847 and located on the farm two miles east of Dixon, known as the Burket homestead, now the home of Luther Burket. After the death of the parents he lived on the farm caring for the younger brothers and sisters until they were married.

In the year 1888 with his family he moved to Somerset, Pa., where he lived until the spring of 1912 when he came back to Dixon and remained until his death. On March 24, 1878 he united in marriage to Miss Mary Emma Wray at Somerset, Pa. Five children were born to this happy union: J. Willis who died at South Pekin, Ill., December 1918, Edward R., of Bradock, Pa., Mrs. Hazel E. Brandt, of Rockford, Ill., Mrs. Mary P. Greig, of Dixon, Mrs. Crystal L. Rohm of Chadwick, Ill. He is also survived by one sister and four brothers: Mrs. Katie Cortright, Edward and Luther of Dixon, Miller of Paradise, Cal., and Howard of Tarpin Springs, Fla.

First Church at His Home

The first Sunday school and church services of the Lutheran church ever held near Dixon were organized in the John N. Burket barn, father of Mahlon. (Continued on Page 5.)

YOUNG CROOKS IN CO. BASTILE PLANNED ESCAPE

Sheriff Frank A. Schoenholtz Saturday afternoon discovered a plan for a second attempted jail delivery in six months. The two young strangers who were arrested last Sunday by the police after ransacking several cars and gave the names of Murphy and Smith, concocted the scheme of escape.

In some manner, Murphy, whose right name has been found to be Robert Loftus, succeeded in getting a letter out of the Lee county jail to his young wife in Rockford. In the letter he is said to have requested that she send him several black saw blades that he might say his way out of the jail. Sheriff Schoenholtz discovered the plot before the supply of blades were received by the prisoner and thus averted a possible attempt at jail delivery.

The sheriff also discovered that both men when arrested gave fictitious names and instead of being Murphy and Smith, they are Robert Loftus and Clifford Henry of Rockford. When arrested they gave Chicago as their home. Both were apprehended by the police after ransacking automobiles for clothing last Sunday evening.

DIXON BOYS ARE MAKING HANDSOME BRASS SHELL LAMPS

Specimens of the fine line of war novelties now being manufactured by Barrus Brothers in their brass and wood working plant on East River street, are on display in the window at the Troj Jewelry store where the hand hammered and plain brass shell parlor lamps, are attracting a great deal of attention. Carlton A. Barrus, first class ship fitter late of the U. S. S. armored cruiser Frederick, is the artisan, having learned the art while in the navy. These lamps, which are from real shells, the same as are carried by all ships having large calibre guns, are priced most moderately.

The use of the one-pounder shells is as a sub-carrier. These guns are either mounted by separate construction on the outside, or are on the inside of the large guns, and are fired in target practice to save the cost of the full sized charges. Their most efficient use, however, was in clipping off pyroscopes of German submarines in which they were most efficient because of their wonderful accuracy.

ROCHELLE DEFEATED MT. MORRIS COLLEGE

In one of the best games there in years Rochelle high school won from Mt. Morris College 7 to 2 in the football game Saturday. Unable to break the heavy college line the high school made a touchdown in the first period by two stellar forward passes handled by Countriman Brothers and Becker. Mt. Morris threatened to score in the last period failing by only a few inches on the fourth down, but made two points by a safety. Rochelle was gaining by end runs as time was called. Potter of Dixon and Lazier of Rochelle officiated.

Saturday's game was the second game on the new high school site. In the opening game Sycamore and Rochelle high schools played a tie, neither scoring.

Wilson Dysart returned to his studies at the University of Illinois this morning after spending Sunday with his parents, Mr. and Mrs. M. L. Dysart.

INVESTIGATIONS BY ENEMIES TO GOVT. CHARGED

Senator Watson Says Federal Trade Comm. Has Many Reds.

By Associated Press Leased Wire
Washington, Oct. 20.—Sensational charges that socialists, reds and other radicals are "intrenched" in the government departments and particularly that the investigating forces of the Federal Trade Commission contain men hostile to the government and American institutions were made in the senate today by Senator Watson, republican of Indiana, who introduced a resolution for an investigation by the interstate commerce committee.

Disclaiming any defense of the great meat packers, Senator Watson declared that the open records of some of the commission's employees on that investigation showed them to be respectively outspoken anarchist, participants in red parades, pro-Germans, admirers of Lenin and Trotsky and avowed exponents of soviet government.

Of Stuart Chase, who had general charge of the investigation of the meat packing industry, Senator Watson charged, that besides being a well known exponent of socialistic doctrines, Chase was president and organizer of the Fabian club of Chicago. "A society founded for the express purpose of furthering the doctrines of socialism."

"Grouped about him in his offices at Federal Trade Commission headquarters," declared Senator Watson, "were Victor Berger, Irvin St. John Tucker and many other extreme socialists. His office became the rendezvous of men devoted to the destruction of property, and overthrow of government and consummation of the ideals of socialism."

Chase, Senator Watson further charged, helped organize a Chicago meeting at which Berger and other radicals made inflammatory speeches and also organized a meeting at which Lincoln Steffens spoke.

"That anarchist," said Senator Watson referring to Steffens, "had just returned from Russia and his address was to aid in recognition of Lenin and Trotsky by our government."

Chase later wrote a magazine article, Senator Watson said, assailing the United States government for not recognizing the "Russian Reds." On Chase's specific instructions Senator Watson further charged, the commission accountants inflated the showing of profits of the packing companies.

ANARCHIST ATTORNEY EXAMINED BY SENATE

By Associated Press Leased Wire
Washington, Oct. 20.—Resuming its investigation of the steel strike, the senate labor committee today examined Jacob Margolis of Pittsburgh, who said he was an attorney for the I. W. W. and a "syndicalist anarchist." He refused to take oath, but made affirmation as to the truth of what he would tell the committee.

"We want to have a pretty frank talk with you about the strike," Chairman Kenyon informed him, "as to whether it is a straightforward labor movement for better wages and conditions, or a demonstration of radicals who wish to establish a new government, an economic system."

Margolis said he had been opposed to war; that he would not advocate resistance to an army invading the United States and that he did not believe in government. Pressed as to personal application of his views, he told senators he would not resist the action of a marauder who wanted to take his coat or attack his wife.

"The I. W. W. have a slightly different plan of organization from labor unions," he said. "Their object is to create a new society within the shell of the old. They are concerned with the daily struggle for better hours and wages, but also have the new orientation toward social and economic change."

EQUIPMENT FOR CO. F RECEIVED THIS MORNING

Captain George Fruin, commanding Company F of this city, this morning received a carload of supplies from the state armory at Springfield and a detail from the company was soon gathered at the armory and spent the day in hauling and unpacking the supplies which will be issued to each member this week. The work of issuing the complete supplies will start Wednesday evening and continue until each member has been equipped. None of the equipment can be removed from the armory.

The equipment received today consists of supplies for a company of 65 men. Recruiting will be started at once to bring the local organization up to this strength. The supplies received consist of rifles, bayonets and accessories, meat cans, knives, forks, spoons, cups, blankets, slickers, tents with poles and pins, wool coats and breeches, leggings, shoes, shirts, haversacks, canteens, cartridge belts and ammunition.

DIXON MILITIAMEN SUFFERS BROKEN ARM

Charles Ramsey of this city, a member of Co. F of the Illinois Reserve Militia, sustained a fracture of the left arm just above the elbow about 2 o'clock yesterday afternoon at Grand Detour where with the officers and other members of the company, he was enjoying a day's outing. Private Ramsey was playing ball at the commons after dinner when he slipped and fell causing the fracture. A Dixon physician was summoned and brought the young man to Dixon where the fracture was reduced.

The members of the company went in autos to Grand Detour yesterday morning where they enjoyed breakfast and spent the forenoon in drilling and playing ball. After dinner they went to Castle Rock, returning home early in the afternoon.

LASALLE-PERU TOO HEAVY FOR DIXON

The Dixon high school football team added another defeat to their list in Saturday's game with the LaSalle-Peru township high school eleven at LaSalle when they lost by a score of 20 to 0. Weight counted heavily against the locals throughout the entire contest. Dixon played a good game however, but was unable to hold the opponents' line. Several of the students made the trip to LaSalle in automobiles and witnessed the game.

PETROGRAD ISOLATED AS CONTRADICTORY REPORTS ARE HEARD

Anti-Bolshevik Forces Are Nearing Capital of Red Govt.

By Associated Press Leased Wire
Copenhagen, Oct. 20.—Anti-bolshevik troops have penetrated to within five miles of Petrograd, according to a semi-official British statement, says a despatch Helsingfors to the Berlingske Tidende.

BULLETIN.
By Associated Press Leased Wire
London, Oct. 20.—The war office states that the troops of Gen. Denikin have driven the bolsheviks from Kiev, which they temporarily occupied last week.

By Associated Press Leased Wire
The fall of Petrograd, which although repeatedly reported captured was still in bolshevik hands at latest reports from accepted sources, is fast weakening and the fall of the city seems imminent, according to today's official advices from the British war office.

Kronstadt, the great island fortress defending the old capital from the sea, is captured Friday and there is nothing now to prevent the advance of the Estonian troops along the shore toward Petrograd, which the fortress guns had thus far held up.

Anti-bolshevik cavalry in a wide circling raid, have swept around the city, and have cut all three of the remaining railroad connecting Petrograd west of the rest of Russia.

By Associated Press Leased Wire
London, Oct. 20.—Petrograd is virtually isolated, the war office announces today, anti-bolshevik cavalry having cut the railroads leading from Petrograd to Vitebsk, Moscow and Volodga. The Petrograd-Vitebsk road is cut at Vitebsk and the Petrograd-Moscow railroad at Tosna, south and southeast of Petrograd respectively. The line at Volodga is cut south of Lake Ladoga.

The war office further announces that Pskov, the important railway junction town about 180 miles south of Petrograd, is under bombardment by the Estonian troops. Petrograd is reported to be preparing for a siege. Machine guns are posted to command (Continued on Page 4.)

STEEL STRIKE BODY Admits He Would Not in Any Way Resist Enemy Arms.

TRAVELING OPTICIAN NOT WELCOMED HERE

A traveling optician with several pairs of glasses, stopped in Dixon for a few hours Saturday evening and had just started to practice his profession when Chief Van Bibber arrived upon the scene. The stranger was working a house to house canvass south of the North-Western tracks and when the chief appeared the optician started west on the tracks toward Nelson. He had gained a good lead when the chief started, which he maintained until two rounds of revolver ammunition had been expended. He was stopped at the Gossard plant and brought to the station and later left town.

Married in Wrong County; Couple on Trip Don't Know It

Harold Douglas Anderson, of Plevia, Mont., and Miss Florence May Frey, who resides north of Grand Detour, applied for a marriage license from County Clerk Fred G. Dimick Sunday morning and the clerk consented to comply with the request and issued the license. The couple then went to Rock Falls in Whiteside county where they are said to have been joined as man and wife by Rev. Holy, of the Congregational church, of that place.

After the ceremony had been performed, the happy young pair left for the plains of Montana, where the groom lives, to make their future home. The pastor discovered some time later that the license had been issued in Lee county and that he, without first investigating the papers, had performed the wedding ceremony. Legally, the couple are not man and wife and in order to prevent probably serious consequences for the innocent pastor and the couple as well, they will be obliged to be married over again.

The pastor came to Dixon this morning and explained as best he could, his innocence in marrying the couple; while the young couple are now being hurried west as fast as steam can take them, happy in the belief that they are married.

The bride is a former school teacher in Ogle county and is the adopted daughter of Amos Frey, a farmer residing near Grand Detour.

HIGHWAYMEN IN TENNESSEE KILL DEPUTY SHERIFF

Barricade Dixie Highway and Rob Travelers for Hours.

By Associated Press Leased Wire
Chattanooga, Tenn., Oct. 20.—With James Oliver, aged 20, in jail, posse today still were scouring the vicinity of Ooltewah, James county, for Ed. Martin, his alleged companion and accomplice in the killing of Deputy Sheriff McIntosh, and the robbery of many travelers on the Dixie highway Saturday.

The two, discharged soldiers, it is charged, barricaded the highway near Ooltewah early Saturday, holding up all travelers who approached, and finally capturing and holding for hours several citizens who came to investigate the killing of Deputy McIntosh, who was shot by one of the boys when he attempted to arrest.

Oliver was wounded in an exchange of shots with a posseman, and was only captured, according to the officers, when he feared he was bleeding to death. Citizens who were held by the men were forced to take him to Ooltewah for medical attention. His companion escaped.

Oliver was threatened with lynching at Ooltewah. A rope was placed about his neck and he was strung up, but citizens desisted when he promised to give the name of his companion.

Deputy Sheriff McIntosh died in full view of persons attracted to the spot. Attempts to reach him with medical aid were repulsed at the point of pistols.

Six men and a woman were huddled along the roadside, covered by the pistol of one of the bandits while several of the hold-ups were in progress.

Chicago Steel Mills Claim Production of 75 Percent Today

By Associated Press Leased Wire
Chicago, Oct. 20.—Conditions in steel mills of the Chicago district have improved to such an extent that today, beginning of the fifth week of the strike, production was on a basis of seventy-five per cent of normal, according to company officials.

Union officials while admitting that practically all of the plants were in partial operation said their reports showed that inexperienced workers were attempting unsuccessfully to fill the places of the veterans of the industry, who remain on strike.

The force of federal troops sent to Gary two weeks ago to take control and prevent disorder in connection with the strike, was still further reduced today.

Gov. W. S. Mapes, commanding the federal troops believed that the situation had so improved that he was justified in reducing his original force of 600 until now only about 600 soldiers remain in the Gary zone.

ROOF FIRE AT BALL HOME SUNDAY MORN

A spark from the chimney at the L. G. Meppin house at the corner of Tenth street and Hennepin Ave., occupied by Fred Ball, caused a roof fire at 11 o'clock Sunday morning, which burned a hole several feet in diameter in the roof, but which fortunately did not result in damaging the interior of the house or any of its contents.

Mr. Ball kept the blaze well under control until the arrival of the fire department by making use of his garden hose.

GARY STANDING FIRMLY AGAINST THE UNION SHOP

Tells Conference Heads He Fears Union Recognition.

By Associated Press Leased Wire
Washington, Oct. 20.—Arbitration of the steel strike, demanded by the labor group, should not be considered by the National Industrial Conference, Elbert H. Gary, chairman of the board of the United States Steel corporation and a member of the public group, told the conference today.

The corporation will not agree to any arbitration and stands firmly on its previous announced policy as regards the question, Gary said. It was his first pronouncement to the conference.

Reaffirming his refusal to negotiate with representatives of labor unions not employed in the plant of the United States Steel corporation, Gary informed Chairman Lane of the national industrial conference, and Frank Morrison, secretary of the American Federation of Labor, today, that he would not recede from his stand for the open shop.

Judge Gary was understood to have expressed fear of the consequences of further recognition of labor unions. The effect of his announcement in the industrial conference remained to be developed. The capital group remained in session all morning forcing a postponement of the conference meeting until 2:30 p. m.

STILL IN DEADLOCK.

By Associated Press Leased Wire
Washington, Oct. 20.—With the tentative agreement reached Saturday completely upset by developments yesterday, the question of collective bargaining between labor and employers still had President Wilson's industrial conference deadlocked today at the opening of the third week of the sessions. The situation stood just where it was when the body adjourned Friday after days of fruitless effort to reach a solution satisfactory to all.

The stumbling block today was the insistence by the employers that to the substitute resolution framed late Saturday by the central committee of the conference, which it was believed would be acceptable to all interests involved, be added a clause declaring the right of employers and employees to bargain individually.

Labor delegates announced their unalterable opposition to the individual bargaining clause.

Urges Liberal Aid for War-Torn Jews

By Associated Press Leased Wire
Springfield, Ill., Oct. 20.—Gov. Lowden urged Illinois citizens today to give liberally during Jewish relief week, Oct. 26 to Nov. 1.

In a proclamation, the governor said in part:

"Six million Jews in Eastern Europe—innocent victims of war—are in direct need. During recent years continuing armies have crossed and recrossed at twelve different times the lands in which they dwell. The men who were the support of these millions have been largely consumed by the armies of Eastern Europe, and now hundreds of thousands of innocent women and children face disease and starvation unless help, and help in abundance, speedily comes. The tragedy can not be averted by the Jews alone."

Declaring the Jews "have measured up to their full duty in the war for humanity," both on the battlefield and at home, Gov. Lowden urged all Illinois organizations to aid to the utmost this great cause of humanity."

DIXON EAGLES WERE BEATEN IN STERLING

The Sterling St. Mary's high school football team defeated the Dixon Eagles yesterday by a score of 7 to 0, the game being played on the former's field. Both teams will meet again next Saturday when the St. Mary's eleven will come to Dixon. The lineup for the locals was as follows: R. Haley, right end; C. Widner, right tackle; L. Stackpole, right guard; E. Bradley, center; A. Thomas, left guard; C. Allen, left tackle; S. Collins, left end; L. Kelly, quarterback; Captains Egler, and Jones, halfbacks and Ryerson, fullback.

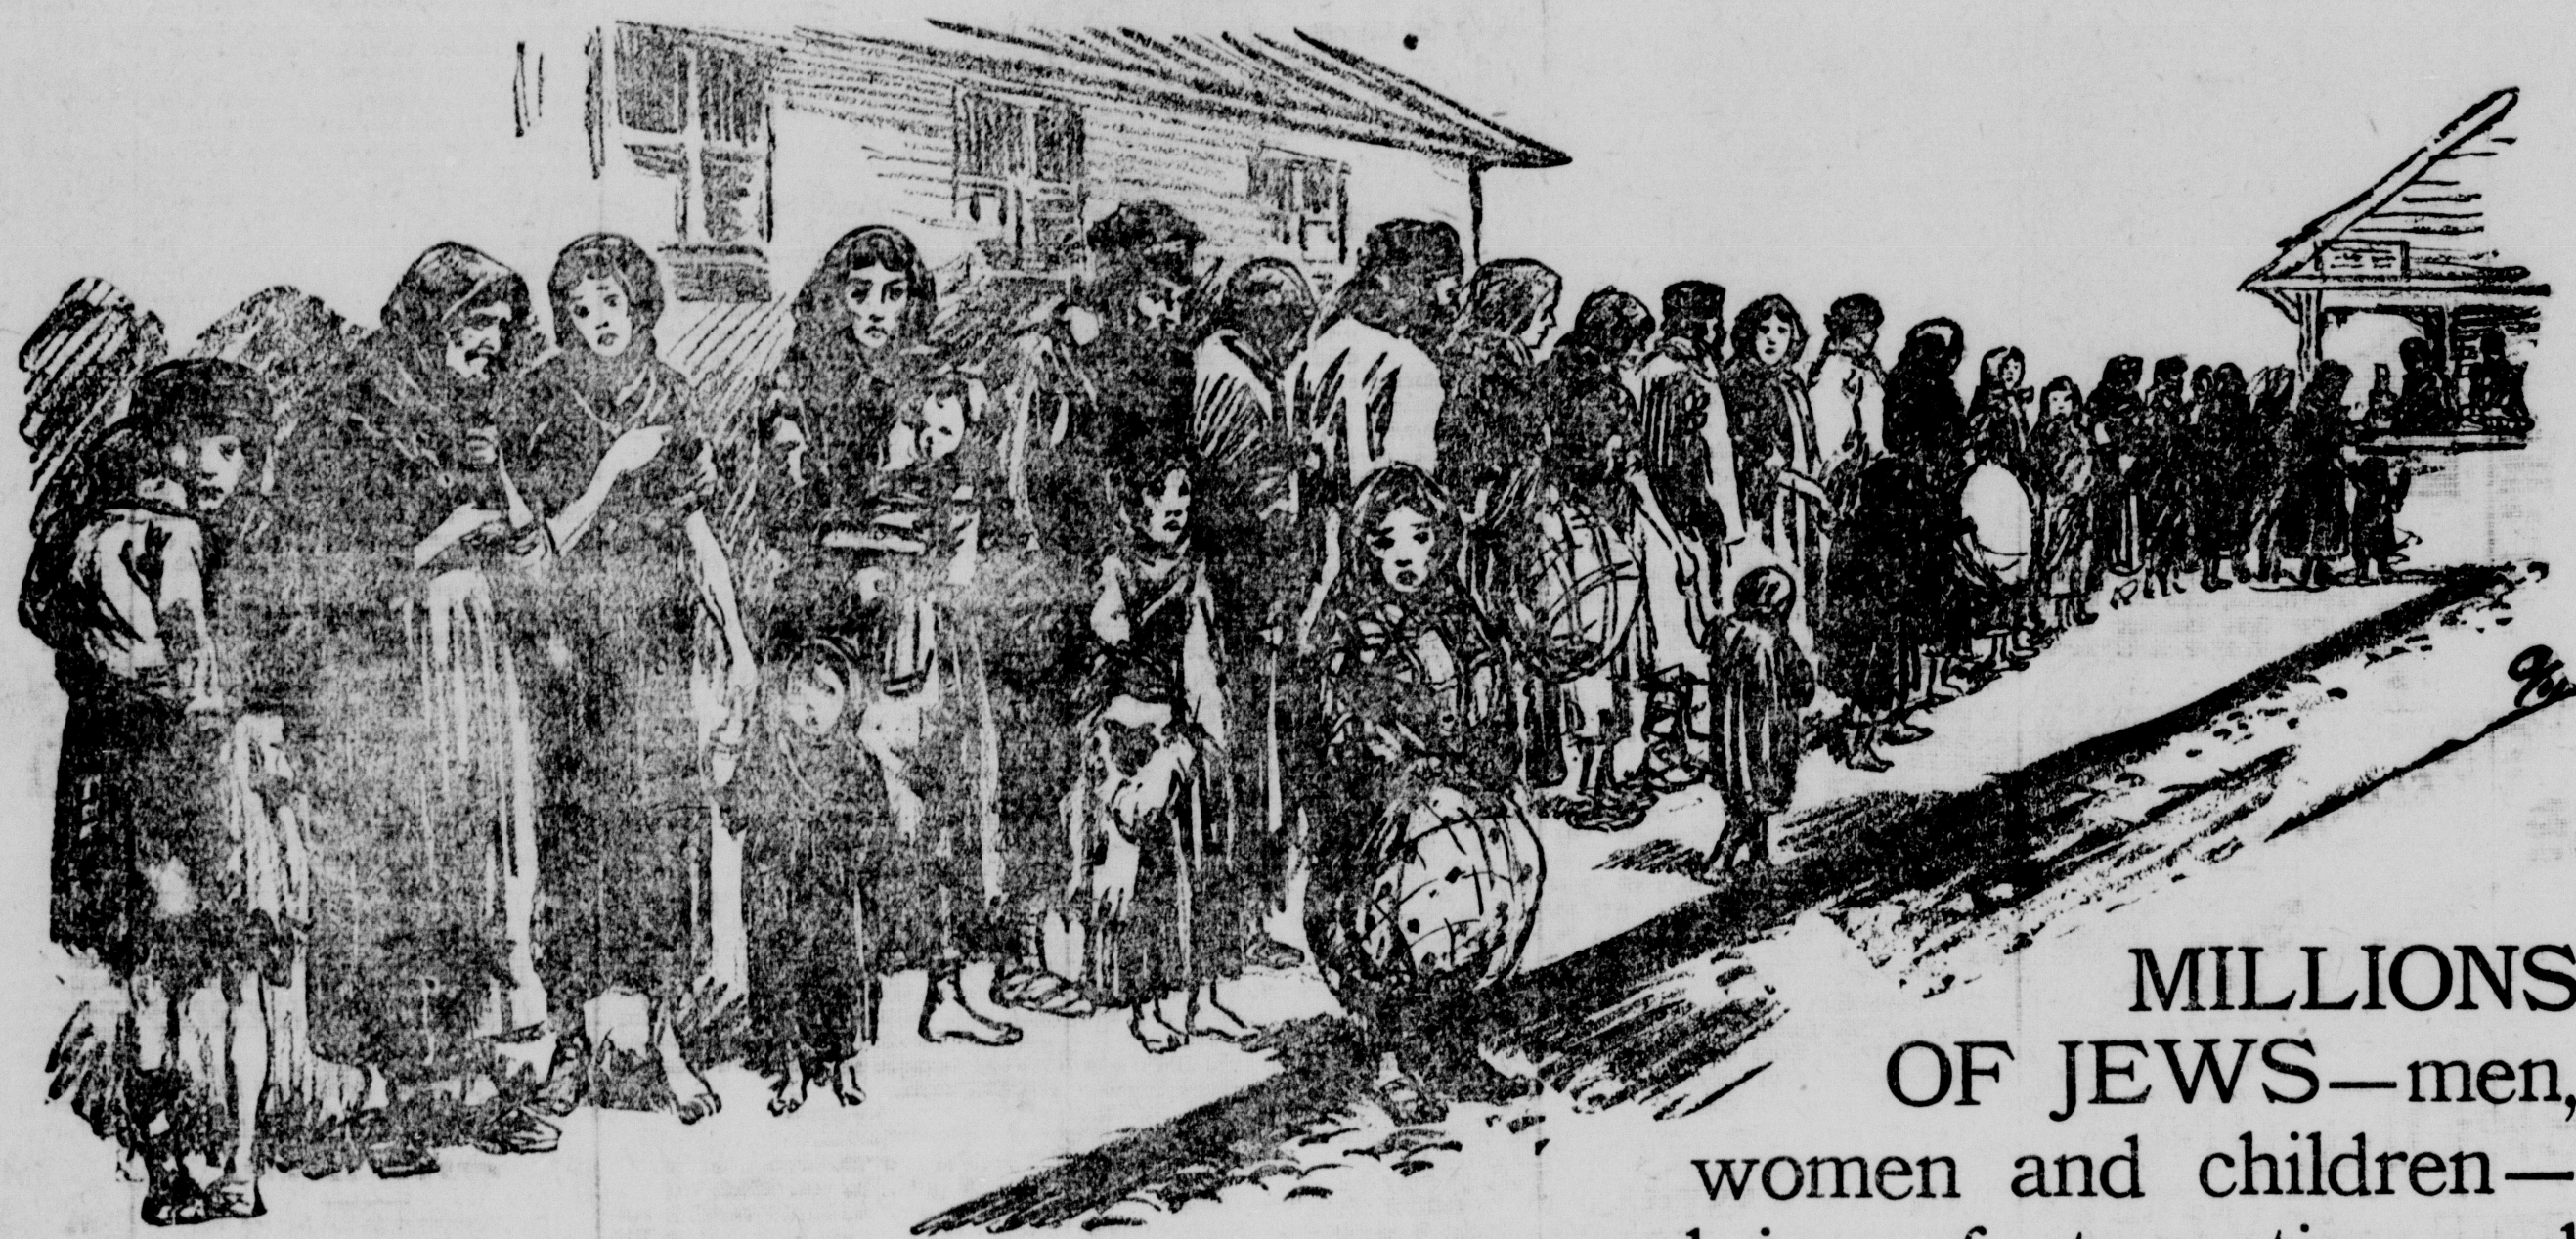

Hello Girls Stage Hour Strike Today

By Associated Press Leased Wire
Chicago, Oct. 20.—Seventy-five telephone operators, dissatisfied with a recent wage adjustment, quit work for an hour today to register a protest against the award. Thousands of business houses were without telephone service. The operators returned to their work when the company's side of the situation was explained.

Mrs. Chris Gross, her sister, and a party of friends motored here today from Franklin Grove.

The Best Investment You Will Ever Make

—IS THIS!

**MILLIONS
OF JEWS—men,
women and children—
are dying of starvation and**

disease in war-stricken Poland, Lithuania, Galicia and Palestine.

Mothers wander crazed, emaciated, homeless, with starving babes piteously beseeching at their barren breasts; children, weak and skeleton-like, lie famished, dying and dead; thousands upon thousands of them, in those afflicted lands beyond the seas. Rich and poor haunt the bread lines.

Their suffering is worse than death—it is the lingering torture of starvation, the piteous tragedy of emaciation, the horrible waiting, in agony of hunger, for the grim reaper to end their misery.

THEY MUST BE SAVED!

To you men and women who read this appeal if you are capable of pity and human charity, to you with hearts and consciences, without regard to creed or sect, they appeal for help in this their darkest hour of distress. They look to you, who have so constantly and generously shown your capacity of human sympathy with the suffering, to save them.

You CAN save them. You WILL save them!

Grim death and starvation are fast in their work.

Death brooks no delay. Death knows no pity. Help for the stricken must come at once. You will not—you cannot—turn a deaf ear to their heartrending plea.

Give all you can. Your money will save precious lives. In everlasting gratitude these unfortunate, afflicted, starving millions will receive your help and will bestow all they have to give in return—their blessing!

TWO SECRET WEDDINGS—

Snatched from the arms of his bride of twenty-four hours, blindfolded and carried to a waiting automobile and then taken to the Riverside cemetery, where he was tied to a tombstone and not released until the early hours of the morning—this was the thrilling Friday night of Chester Thomas, 21, an employee of the Denver branch of the Federal Reserve bank, according to the Denver Post.

The kidnappers were a dozen of Thomas' fellow-workers at the office, who, determined "to get even" with him for "slipping over the marriage" the night before, took this means of warning others in the office that secret marriages are taboo.

Mr. Thomas and Miss Myra R. Morrison, recently employed as secretary in the office of Dr. G. L. Monson, in the Metropolitan building, were secretly married at the Highlands Methodist church by the Rev. J. G. Bravn, the pastor, Thursday.

Mr. Thomas is the son of Mr. and Mrs. Charles A. Thomas, formerly of Dixon, and now of Denver, Colo. He will be remembered by Dixon school friends.

His sister, Miss Thelma L. Thomas, followed her brother's suit and was also secretly married a short time ago. Her husband is John Eugene Steinback and their wedding took place at Golden, Colo. She is the oldest daughter of Mr. and Mrs. Thomas.

HAMMOND-OSBAUGH—

The marriage of George Osbaugh, of this city, and Miss Amy Hammond, of Prophetstown, took place Saturday at 11:30 o'clock in the office of Judge John Crabtree in this city. Mrs. Ross Bovey, Mr. Osbaugh's sister, and Mrs. Fred Smith were in attendance. Mr. Osbaugh is the son of Mr. and Mrs. D. W. Osbaugh, of this city. He recently returned from service overseas.

RETURNED FROM CONVENTION—

Rev. C. G. Unangst, Mrs. Frost, Mrs. Carl Hess, Miss Cleo Deeter and Geo. Beede returned last Friday from Shannon where they attended the state convention of Sunday school and K. L. C. E. workers.

AT SUNDAY DINNER—

Mr. and Mrs. Chas. Martin entertained at Sunday dinner, Mr. and Mrs. Alfred Morgan, of the state of Oregon, who are here visiting relatives, Mr. and Mrs. Howard Martin, of Palmyra, and Mr. and Mrs. James Wolfe.

RETURNED FROM BALTIMORE—

Mrs. E. G. Brenner and Mrs. Tryon Rosbrook returned Thursday evening from visits in Baltimore, Washington and Philadelphia. They attended in Baltimore the national convention of War Mothers.

VISITS SON AT U. OF I.—

Mrs. Adolph Eichler and son, Victor, went to Champaign on Friday to visit Mrs. Eichler's other son, Sidney, who is attending the University of Illinois. They expected to witness the Illinois-Iowa game today.

WITH MRS. LONERGAN—

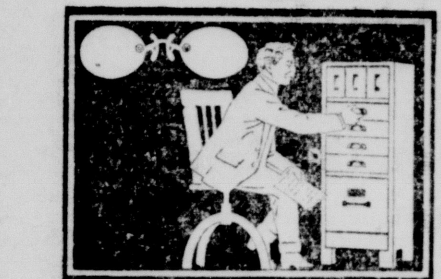

Mrs. Mary Finn, of Amboy, and Miss Mary Larkin of Polo, who attended the Teachers' Institute in Dixon the past week, were guests while here at the home of Mrs. J. Lonergan.

GUESTS FROM OREGON—

Miss Cartright and sister, of Oregon, daughters of Judge Cartright, were guests Friday night and Saturday morning at the home of Mrs. C. H. March, of North Dixon.

W. C. T. U. MEETING—

The regular monthly meeting of the W. C. T. U. was held at the home of Mrs. Fred Hobbs Friday afternoon. The meeting opened with singing and saluting the flag, with the president, Mrs. Herman Miesman in the chair. The treasurer, Miss Callie Morgan, gave an itemized report for the past year show-

ing the society to be in good condition and with the appropriation to the Jubilee fund fully paid. Mrs. Marion Mahen, the superintendent of prison reform work, gave a report of meetings which have been held in the county jail. In her report she showed the necessity of co-operation with the several departments of the union; namely, the Mothers', the Flower Mission, Evangelistic, and Musical. She told of the prisoners in the jail, some of them ex-soldiers, and of the appreciation they expressed for the interest the women were taking in behalf of their betterment. Rev. Jesse M. Tidball, of the Presbyterian church, who accompanied a few of the members and the superintendent, held a very interesting meeting a week ago. At the close of the meeting a young man requested them to sing America and to this all heartily responded. Miss Morgan read a paper on "Anti-narcotics." The union proposed to hold a meeting for the reception of ministers and teachers to further the interest in the subject of Anti-narcotics. The remainder of the program consisted of a charmingly rendered instrumental duet by the Misses Anna Hoffman and Grace Johnson, an interesting reading by Mrs. Leydig, a beautiful vocal solo by Miss Marie Hobbs, "The Royal Telephone." Each responded with encores. A food sale will be held by the union in December, the exact date to be announced later.

SEA POWER

Smaller interest is taken now in the American merchant fleet than in the days when the nation was bending every effort to "bridge the Atlantic" and check the German menace. Ships and tonnage have lost much of their power to charm. Any one who goes abroad, however, is in little danger of forgetting this big American achievement. It comes to travelers with almost magical power in the sight of the American flag flaunting in the breeze in every ocean lane and in every important harbor in the world. Before the war, an American vessel was such a rarity in foreign waters as to cause comment.

There is magic, too, in the mere figures, so long as we avoid counting the millions that our new shipping has cost us. One-fourth of all the tonnage of all the nations now flies the Stars and Stripes. The United States is second to Great Britain, with above 13,000,000 tons to Britain's 18,000,000. Before the war Germany was ahead of us; now we have nearly four times her tonnage. In two years we have built more than 1100 ocean-going ships. During the war we have gained nearly 8,000,000 tons. And the fleet is still growing—very expensively growing, but let us hope usefully.

There is a tendency at present to disregard this great shipbuilding enterprise, to count all the shipbuilding as a mere passing incident of the war. There is danger of ignoring the practical peace-time benefits that we looked forward to so eagerly when the big building program was undertaken.

It would be a big mistake, of course, to let up now in the great game. Those transports and freighters may seem less valuable now, with few soldiers to ferry and provision, and with so heavy a demand at home for foodstuffs and other commodities that exports are viewed with misgivings, as causing the h. c. of l. to mount higher. But that mighty fleet, if preserved and added to will come into full and final appreciation in more normal and prosperous times. But be it remembered that all this depends on election next year of an administration and a congress that will believe in a policy that will keep our ships prosperously afloat, and a policy that will at the same time keep our mills and our factories at work—a policy of protection to all classes of American industry, including that of the farmer—a policy of protection, a policy of favorable ocean mail contracts to our own ships, and of ship subsidies if necessary.

ATHLETICS IN THE FAR EAST.

Who says American influence is not felt in the Philippines? In an all-oriental athletic meet that came off last spring, the Filipinos carried off nearly all the honors, in spite of the fact that a Chinese athlete won the greatest number of individual prizes.

With few outstanding individual stars the Filipino teams showed the best all-around form and did the most consistent good work. They made excellent records in track and field, in swimming, tennis doubles, basketball and baseball events.

Full details of that tournament in the far east have been slow to reach the general public in the United States, partly because seemingly more important things have engrossed attention. It is also true that the people of this very athletic nation do not ordinarily think of the Chinese, Japanese, Filipinos and other orientals as participating in our own favorite athletic contests and competitive games. Nevertheless it is true that they have adopted occidental sports with astonishing enthusiasm. If it came to a test they might even be found to understand the fine points of a baseball game and to appreciate the proper attitude toward the umpire better than our European allies who have been striving so earnestly to learn the game.

INVESTIGATIONS
BY ENEMIES TO
GOVT. CHARGED

(Continued from page one.)

had general charge of the investigation. Senator Watson charged, was "an avowed admirer of Lenin and Trotsky and frequently expressed his admiration of the soviet government of Russia."

"He was pronounced against the allies in the world war," continued the senator, "and frequently made the statement that all big business should be confiscated by the government."

A. S. Kravitz, credited in the commission's report with "important aid" in the investigation. Senator Watson charged, was a "Russian from Riga, an intellectual socialist of the most pronounced type, and throughout the war intensely pro-German."

"He has always expressed himself as an ardent admirer of Lenin and Trotsky and claims to be a personal friend of Lenin. Frequently he has stated he was heart and soul for the German cause," said the senator.

Raphael Mallett, a statistician. Senator Watson charged, was a former preacher ousted from his church for socialist tendencies and also had been confined to a military prison, in 1917 as a "conscientious objector."

"Carried Red Flag"
"He frequently waved a red flag at the meetings of his co-employees," declared the senator, "and always carried the red flag in his pocket. He openly stated that his home had been raided. He stored his socialist writing in Chase's office and boasted that the packages holding them contained 'government dynamite.'"

R. N. Buck, credited in the commission's report with "valuable assistance," Senator Watson charged, was the author of attacks on the rights of property and American institutions, and Basil Manly, who assisted in the investigations, the senator described as one who was a member of the Fabian club and a confederate with other socialists at Chase's office.

One a Russian Exile

Johann G. Ohlso, credited in the commission's report with "important aid," Senator Watson charged, was a member of the Russian Duma, exiled to Siberia from which he escaped, and a pronounced socialist of the most virulent type who never failed to express the greatest admiration for Lenin and Trotsky.

Martin L. Sorber, another employee, the senator charged, was "a friend and admirer of Berger and Tucker, and an organizer of radical propaganda. Sorber, Senator Watson charged, while on the pay roll of Tucker, was also employed by the Trade Commission."

D. A. Kemper, another employee, Senator Watson declared, "was open and avowed in his seditious utterances and always active in scattering socialist propaganda."

Wanted Soviet in U. S.

Earl S. Haines, another employee mentioned for "important aid," Senator Watson said, "openly asserted that the soviet government of Russia was the greatest government in the world and that he would never be satisfied until we had one like it in America."

Involved Chicago Woman
"My information," said Senator Watson, "is that a Mrs. Baldwin, an accountant at headquarters of the trade commission in charge was an anarchist of the most pronounced type. When the bomb was exploded at the conclusion of the I. W. W. trials before Judge Landis she exclaimed 'it serves them right.' A number of lives were lost in that outrage."

"When an anarchist parade was held in Chicago after the signing of the anti-peace Chasse Kravitz, Sorber and Kemper marched wearing red neckties and waving red flags until they were taken in custody by the authorities. Tucker telephoning from the office of the Trade Commission demanded of the Department of Justice the return of the captured flags."

"This shows the company in which some employees of the commission were found in Chicago."

"What I say is in no wise a defense of the matters," said Senator Watson, "if they are guilty they should receive the punishment they deserve. But no matter what business is subject to investigation by the Federal Trade Commission, it is entitled fair and decent treatment. Men sent out by the commission should be investigators—not persecutors."

"The Chicago office of the Federal Trade Commission during the period of this investigation was a center of sedition and anarchy—a nesting place for socialists, who while investigating business with a view to eradicating its evil features, constantly plotted for the destruction of the business they were bared to investigate and for the confiscation and collective ownership of all means for the creation and distribution of wealth."

Physicians Discuss

Advance in Surgery

By Associated Press Leased Wire

New York, Oct. 20.—Wartime developments in surgery and the possibility of their adaptation to industrial and civil practice were the principal topics for discussion at the ninth annual convention of the American Congress of Surgeons, which opened here today.

Dr. W. J. Mayo of Rochester, Minn., will deliver the inaugural address to night. The convention will continue throughout the week.

INTERNATIONAL FAIR TRADE

By Associated Press Leased Wire

Atlantic City, N. J., Oct. 20.—Establishment of a permanent international organization of business men for the purpose of eliminating unfair international trade practices, working out a better system of credit and finance in the international exchange of goods and acting as a clearing house for ideas with regard to manufacturers and commerce, is expected to result from the international trade conference which is to be held here this week. Informal conferences and sub-committee meetings were begun today and will continue until formal sessions begin Wednesday night.

QUEEN ESTHER MEETING

A meeting of the Queen Esther society of the Methodist church will be held this evening with the Misses Olive and Ruth Kerz.

MANY REPORTS ON
PETROGRAD HEARD

(Continued from page one.)

the principal streets and supplies of food are being brought into the city. A bolshevik division, which was being rushed to Petrograd from the interior to defend the city against the threatening advance of Gen. Yudenitch, was virtually wiped out at Krasnoe Selo, when Gen. Mudenitch took that outpost to Petrograd, according to war office advisers.

The white flag was hoisted over the Russian fortress of Kronstadt Friday, it was announced by the British War office today.

PARIS GETS REPORTS.

By Associated Press Leased Wire

Paris, Oct. 20.—(Havas)—Contradictory reports are received from Russia and it is impossible to confirm rumors that Petrograd had been taken by the northwestern Russian army under Gen. Yudenitch. It seems certain, however, that the Yudenitch troops are advancing and must be at the gates of the city, if they have not already taken it. The situation at Riga is critical, according to news reaching Paris yesterday, says the Petit Parisien. The Lithuanian army has sufficient effectives to resist the attacks of forces commanded by Col. Avaloff-Bernomont, and also lacks artillery and materials of war, the newspaper says.

MANGIN STILL IN PARIS.

Newspapers here announce that Gen. Mangin of the French army has been nominated as chief of the inter-allied mission to supervise the evacuation of the Baltic provinces by German troops who up till last week were under the command of Gen. von Der Goltz. They declare, however, that the nomination has not been confirmed but that it seems probable that this or some other similar post has been offered to him. Gen. Mangin is understood not to have made known his decision as yet.

A Paris dispatch Saturday said that Gen. Mangin, "the French member of the inter-allied commission to supervise the evacuation of the Baltic states by the troops of Gen. von Der Goltz," would leave Paris immediately for the Baltic, to be followed by other members of the commission. No word of his departure, however, has been received.

Donaldson, Second in
Air Race, Lands Today

By Associated Press Leased Wire

Minneapolis, N. Y., Oct. 20.—Capt. J. O. Donaldson, the second aviator to complete the trans-continental flight from here to San Francisco and return, landed at Roosevelt field at 10:30:12 a. m. Capt. Donaldson made the 5,400 mile flight in a single-seater S. E. 5 airplane.

By Associated Press Leased Wire

San Francisco, Oct. 20.—Three flyers in the army's airplane race were scheduled to take off early today in a contest for the honor of being first to reach the Golden Gate after a flight twice across the continent.

Two—Capt. Lowell H. Smith and Lieutenant H. E. Queen—were at Cheyenne, Wyo., 1,065 miles from their destination while Lieut. E. C. Kiel was at Sidney, Neb., 93 miles further east.

Of the eleven contestants yet to start from here on the last leg of the flight, but one, Lieut. Col. H. C. Hartney, had announced definitely he would be ready to depart today.

MARTIN FOSTER, M. C., DEAD.

Olney, Ill., Oct. 20.—Former Congressman Martin D. Foster, democrat, died at his home here today after several months' illness.

He served six terms in congress as representative from the twenty-third Illinois district and retired last March. Last summer he served as a member of a government commission appointed to adjust war mineral claims in western states. He returned home seriously ill from overwork Sept. 1.

He was born on a farm near West Salem, Edwards county, Illinois, Sept. 3, 1861.

He graduated from the Eclectic Medical Institute, Cincinnati, O., in 1882 but later attended the Hahnemann Medical College, Chicago. He practiced medicine in Olney before entering politics.

GAVE HIM A SAMPLE

By Associated Press Leased Wire

Hamilton, O., Oct. 20.—After his experience of being chloroformed, taken to a woods and tarred and feathered yesterday, John E. Steiker, local socialist leader, today received a letter advising him to leave the city in 10 days, on pain of being more severely treated.

GREEKS OCCUPY THRACE.

By Associated Press Leased Wire

Sofia, Oct. 20.—Troop movements for the occupation of territories in western Thrace, which are to be evacuated by the Bulgarians were begun today, it is announced in an official report from Greek general headquarters.

GOT \$10 AND COSTS.

WICHER TRIAL IS
TAKEN UP BEFORE
JUDGE O. E. HEARD

The trial of Clyde L. Wicher, former superintendent at the Lee County Home, was begun in the circuit court this afternoon at 1:30. The court room was well filled when the case was called. State's Attorney Harry Edwards offered two contracts between the county and the defendant as exhibits. The case is before the court, no jury being called.

Herbert Schultz was the first witness for the state to take the stand. He lived across the road from the home in 1918 and told of seeing Mr. Wicher kicking an old man who was working in a field.

Clifford Wicher, a brother of the defendant, testified to having received groceries from the superintendent, for which he paid \$40.10. He testified that his testimony before the grand jury was confused and that he now clearly recalled statements that he made to that body which he today denied.

Joseph Bauer, supervisor from Hamilton township, who was one of the active leaders in the movement to oust Wicher from the county home, was the third witness called. He told of talking with the defendant in the lobby of the court house and recalled reports that were made to him which led to the investigation. The state will require the remainder of the afternoon and part of tomorrow to examine its witnesses.

British Cold to Plan
to Share Gibraltar

By Associated Press Leased Wire

London, Oct. 20.—The statement made by Henry Morgenthau on his return to the United States, suggesting that Great Britain share the control of Gibraltar with the United States was not generally reported here. The Morning Post alone carries something like a full report under the headlines:

"Gibraltar—A Naive Suggestion" but does not comment on Mr. Morgenthau's words.

A brief agency account is printed by the Graphic, which refers somewhat vaguely to the "Gibraltar proposal." The newspaper comments in general terms, urging the United States to accept a mandate for Constantinople, Armenia and Anatolia, but passing by the Gibraltar recommendation as "a little obscure." Other papers do not mention Mr. Morgenthau's statement.

New York Celebrates
in Roosevelt's Memory

By Associated Press Leased Wire

New York, Oct. 20.—New York began today the celebration of "Roosevelt week," during which the Roosevelt Memorial Association will conduct a campaign for new members and for funds to be used in the establishment of suitable memorial to the late ex-president. There was a noon mass meeting on the steps of the United States sub-treasury building, and forty aviators, representing the Roosevelt rough riders, the American Legion, the Spanish-American war veterans and the Friends of St. Patrick, were to fly over Col. Roosevelt's grave at Oyster Bay, in the afternoon, dropping wreaths. The Roosevelt memorial flag, which has been borne from Buffalo on foot by boy scouts and school boys over more than 700 miles, arrived here today. The flag will reach Oyster Bay next Monday, Col. Roosevelt's birthday, and will be planted on his grave.

Landis Will Probe
\$7,000,000 Deal

By Associated Press Leased Wire

Chicago, Oct. 20.—S. C. Pandolfo, head of the Pan Motor Co., of St. Cloud, Minn., and 12 other officials of the corporation, charged with conspiracy in using the mails to defraud in the sale of \$7,000,000 worth of stock in the concern will be placed on trial before federal Judge Landis, Oct. 23. The trial was set for today but postponed by agreement.

The indictments charge the defendants with having sold the stock to 60,000 persons in all parts of the country.

September 26 Judge Landis entered an order warning attorneys for the corporation against intimidating or communicating with government witness.

Ontario Voting on
Prohibition Today

By Associated Press Leased Wire

Toronto, Ont., Oct. 20.—The province of Ontario is voting today on the proposal to perpetuate the prohibition law instituted as a war measure.

For the first time in the history of the province women took part in the voting and an exceptionally heavy vote was anticipated.

The electors also were called upon to decide the fate of the conservative government which has been in office since 1905 and of which Sir William Hearst is premier.

Two Killed in Iowa
Explosion Yesterday

By Associated Press Leased Wire

Iowa Falls, Iowa, Oct. 20.—Two men were killed, another may die and several others were more or less seriously injured following two explosions in a fire which destroyed the produce plant of Swift & Co., here late yesterday afternoon.

J. C. Martin was struck by a flying timber and died a few hours later.

A second explosion followed the first by about 10 minutes, throwing a piece of iron into the crowd watching the fire and instantly killing Melvin Sheaffer. His body was cut in two.

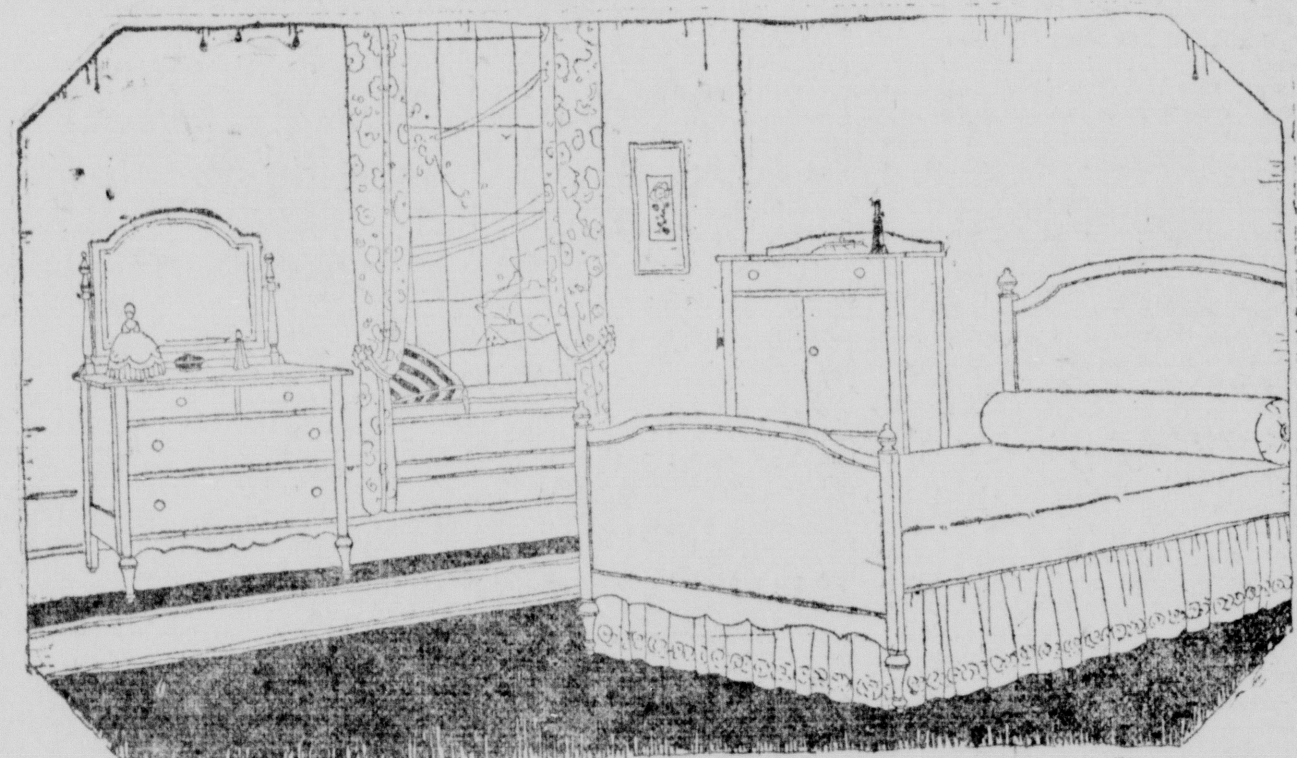

Several other persons were injured by the flying debris.

RAILROADS FACE BAD SITUATION TO MOVE WHEAT CROP ON TIME

Director General Hines in Statement Shows Conditions Existing.

Walker D. Hines, Director General of Railroads today authorized the following:

The railroads of the country are now doing heavier business for the present season of the year than was ever done in the history of the railroads in normal years, and practically as heavy business as was done at this season in 1918, which exceed all previous records. They have more cars in actual service after excluding cars held out of service for repairs than in 1917 or 1918. While the bad order car situation was greatly embarrassed by the extensive strike among shop men in August, the percentage of bad order cars is now rapidly improving. There was an increase of 52,456 cars in serviceable condition between August 16th and October 4th. 12,119 of this increase were added in the one week ending October 4th. While the freight business is practically as heavy as at this time last year, the railroad administration in performing that business is unavoidably deprived of many exceedingly important sides it was able to utilize last year. One of these is the zoning of coal, which last year compelled consumers to take their coal from nearby mines, and thereby greatly increased the efficiency of coal transportation. This advantage has necessarily been lost because of coal zoning terminating last winter. Another is—that last winter there was much heavier loading of many important commodities than it has been impossible to secure this year, and the result is that under existing conditions more cars have to be used for the same amount of traffic than were used last year. There are various other important respects in which traffic was controlled in the interests of the war last year, so as to get the maximum results out of rail transportation, and with return of Peace conditions and the resulting insistence of public sentiment, account of release from war-time restrictions, these advantages have been lost. The fact that there is still a shortage in rail transportation is due to the condition—that amount of business of carrying is far in excess of the transportation facilities of the country. This has always been true in this country, in time of heavy business in the autumn, except last year when the matter could be and was controlled with an iron hand, with a view solely to war necessities, at the same time railroad facilities have not expanded to the extent required in the public interests. Even prior to the war, railroad facilities were not equal. During the war, the addition of new facilities was greatly restricted by scarcity of material and labor. Since the war it has been impossible to enter upon or carry out any extensive programs for enlargement of railroad capacity, because of the uncertainty as to the status of the railroads. The railroad administration was not provided with the money, and therefore, could not originate or carry out any such programs. The railroad companies in view of the uncertainty

The result is that the railroad facilities of the country are decidedly below what the traffic demands, never-the-less, the maximum traffic is being handled, and were unwilling to provide the money, this is being done with less shortage of transportation than manifested itself at times in the pre-war period.

Particular attention is being paid by the railroad administration to the furnishing of the necessary equipment for the transportation of coal and grain. It was decided early in September that in order to meet the coal requirements of the country, it would be necessary for the railroads to move a minimum of eleven million tons of bituminous coal a week. For the week ending September 13th, eleven million forty-six thousand tons were transported; for the week of September 20th, eleven million two hundred forty-eight thousand tons were transported, and for the week ending September 27th, the railroad administration estimated that approximately eleven million five hundred seventy-five thousand tons were transported. Other conditions have developed, which have made it necessary to handle the wheat situation in an emergency way. This situation has been complicated by the fact that many of the elevators are full, and it has been impracticable to move additional wheat to points where the elevators are full. To do so, would cause large number of railroad cars to be filled with grain, which would not be disposed of at destination, and this would result in practically taking such cars out of transportation service and depriving the public generally of cars which are badly needed for business of every source. The railroad administration is following this matter very vigorously in consultation with the grain corporation, and the director general will consider the matter personally at a meeting of interested railroad officers, representatives of the grain corporation, and others to be held at Chicago.

As to the situation in Texas where wheat conditions are practically acute, because the crop is approximately 25 million bushels larger than last year, and while there is a scarcity of local storage facilities, arrangements are being made thru the grain corporation for the sending of additional cargo vessels to Galveston, and arrangements have been made for increasing the number of permits for exports of wheat into Galveston from 50 to 100 per day. Particular efforts are being made to move wheat which is on the ground and is thus exposed to the weather.

JUMPING MATCHES EXPLAINED.

The attention of several people has been attracted by three matches on a piece of white glass in the east show window at the Train Jewelry store. The matches dance around on the smooth glass surface, fall down and then repeat this action. This is explained by the fact that an electric magnet is beneath the glass and a small piece of steel is inserted into the end of the matches. When the current is on the matches stand up and when turned off, they are inactive.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 10c and 25c.

URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts or Bladder bothers you—Drink more water.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that most forms of uric acid which almost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

INDIGESTION

Caused by

Acid-Stomach

Millions of people—in fact about 9 out of 10—suffer more or less from indigestion, acute or chronic. Nearly every case is caused by Acid-Stomach.

There are other stomach disorders which also are sure signs of Acid-Stomach—belching, heartburn, bloating after eating, food refusing to pass stomach. There are many ailments which, while they do not cause much distress in the stomach itself, are nevertheless traceable to an acid stomach. Among these are nervousness, biliousness, cramps of the liver, rheumatism, impoverished blood, weakness, insomnia, melancholia and a long train of physical and mental maladies that keep the victims in miserable health year after year.

The right thing to do is to attack these ailments at their source—get rid of the acid-stomach. A wonderful modern remedy called EATONIC now makes it easy to do this. One of hundreds of thousands of grateful users of EATONIC writes: "I have been suffering from indigestion for about nine years and have spent quite a sum for medicine, but without relief. After using EATONIC for a few days the gas and pain in my bowels disappeared. EATONIC is just the remedy I needed."

Get the benefits of EATONIC and you, too, will be just as enthusiastic in its praise. Your druggist has EATONIC. Get a big box from him today. He will refund your money if you are not satisfied.

SAGE TEA DARKENS

HAIR TO ANY SHADE

Don't Stay Gray! Here's an Old-time Recipe that Anybody can Apply.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark and glossy. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by going at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

DRINK HOT WATER

IF YOU DESIRE A ROSY COMPLEXION

Says "we can't help but look better" and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphate hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness. We cause the skin pores do not absorb impurities into the blood, while the bowel pores do.

LIBRARY NOTES.

French Posters At Library.

Bringing home to us with greater distinctness what we before hazily know, that the French were conducting at the same time that we were, Liberty loans, food conservation campaigns, etc., just as we were during the war, the French posters, brought from France by John G. Ralston and loaned by him to the Dixon Public Library, are, indeed, of great interest. In this collection are Y. M. C. A. posters, illustrating something of the cheer, "Les Foyers du Soldat," the Y. M. C. A., stood for in France to the soldiers; beautiful railroad (Chemins de Fer) posters; posters urging subscription to the national loan (Emprunt); and posters made by the children in the schools of France charging the people to conserve food that all may have and that the soldier's must be full.

Among some of the striking Liberty loan posters are those representing Alsace and Lorraine seeking to be joined again to France; the flags of all the allies in the hands of banner bearers driving before them Wilhelm of Germany; the Prussian eagle with its throat clutched in a strangle hold by a French soldier; the Prussian eagle again on a pinnacle with the allies reaching up to grasp it, the inscription in French indicating that one more effort and it will be in the power of the allies.

Suggestions that fish be used instead of meat, that the use of sugar be halted in the cutting of the characteristic sugar loaf of France, that those in the rear (at home) should have tobacco that the soldiers might have more, that

boarded money be put into circulation as an aid to commerce, and many more of a like nature, are subjects of clever posters made by the children upon the suggestion of the government bureau in charge of conservation. The school children of Dixon who submitted posters during the war on similar subjects will find much of interest in the work of the French children.

The French student will find an opportunity in the posters to test his powers of translation. Most of the posters have the superscriptions in French. However, there are a few in English on posters illustrating the Service of Supply of the United States.

Everyone should see these posters, many of which are characteristically French in art.

A witch hazel branch, taken from a shrub growing near Castle Rock, is also on exhibit in the public library. This plant is the only one which blooms as the leaves drop in the fall and the curious yellow blossoms are borne in abundance on the branch exhibit.

AMUSEMENTS

"OH, LADY, LADY," COMING.

"Oh, Lady, Lady," the F. Ray Comstock and William Elliott fifth New York Princess Theatre musical comedy sensation, will be the attraction at the Dixon opera house Wednesday night, October 22nd.

The latest Comstock Elliott offering far surpasses the success achieved by all former Princess Theatre Produc-

tions. The book and lyrics are by Guy Bolton and P. G. Wodehouse, and the music by Jerome Kern. The plot of "Oh, Lady, Lady" is very entertaining. Its bright lines and scintillating wit hold out consistently to the end of the story of the interrupted wedding of Willoughby Finch and Molly Farrington.

The story of "Oh, Lady, Lady" presented in a beguiling form, and with the really excellent dancing and the well dressed and well trained ensemble girls, as well as the staging of the two acts, "Oh, Lady, Lady" affords a truly interesting form of entertainment even to the most blasé. The long list of principles is composed of a succession of Broadway favorites who can really sing, dance and act.

The cast of "Oh, Lady, Lady," will include Miss Pauline Berri in the role of the young bride; Mr. William Gaston in the leading male role; Miss Betty Blythe as Fainting Fanny Welch; Eugene McGregor as Spike Hudgins, and a number of other well known stars among them Joseph McCallion, Florio Auburn, Water Gray, Marie Haan, Thomas C. Leary, Madeline Gray and a large chorus.

Business men in need of job printing should call Home Phone No. 5. Our representative will call on you.

COLONY PATIENTS CAUSE MORE WORK

Two more patients from the state colony walked away from that institution Saturday and came to Dixon. About 7 o'clock Saturday evening the fire bell rang for some time to call the police to an address in the west end of the city where the pair had made an effort to enter a house. They were finally caught after a chase down the North-Western railroad tracks and brought to the station, later being turned over to the colony authorities.

Early Upturn in Corn Not Maintained Today

By Associated Press Leased Wire
Chicago, Oct. 20.—Although lightness of offerings gave an upward tilt today to the corn market, the advance was not maintained. Downturns in the value of hogs had a bearish effect. In addition, many traders expressed doubt of the reports that farmers generally were adopting a holding policy. Opening prices, which ranged from 1/2 to 3/4 higher, including December at 1.27 to 1.27 1/2, and May 1.25 1/2, were followed by a sag all around to well below Saturday's finish.

Oats were steadier than corn. This stability was ascribed largely to recent big sales to exporters. After opening unchanged to 1/2 higher, including December at 71 1/2 to 72 1/2 the market remained at about initial figures.

Provisions fell with hogs. Support was lacking. Considerable selling was based on the fact that there had been a bulge of more than 6 cents within a week. The close was heavy, 1/2 to 1 1/2 net lower, with December at 1.25 to 1.25 1/2 and May 1.23 1/2 to 1.23 1/2.

DIXON POST WILL MEET THURSDAY EVE

A very important meeting of Dixon Post No. 12, American Legion, will be held at the G. A. R. hall Thursday evening, at which time Everett Dutcher, delegate to the state convention at Peoria last week, will make his report. Permanent organization of the state body was completed at the convention and through his report Mr. Dutcher will make it possible for Dixon Post to perfect its organization permanently. The Post will also take action on a request of the Dixon Memorial Ass'n. that the returned veterans of the world war take charge of their coming bazaar on one evening.

MOOSE TO INITIATE CLASS WED. EVENING

The members of Dixon lodge L. O. O. Moose anticipate one of the finest meetings since the lodge was organized in this city at their club rooms Wednesday evening when a large class of candidates will be given the initiatory work. An oyster supper will follow the business meeting and the social feature will also be given special attention.

SCENES OF NOVEL LAID NEAR DIXON

City Clerk Harold Ward, of Sterling, at one time city editor of the Dixon Sun, and very well known in Dixon, has just completed a new novel which will be of interest to people in this vicinity since the scenes of the tale, which will be published serially in the Chicago Ledger, beginning November 22, are laid in this community. The title of the novel is "The Daughter of Dance Hall Kate."

TO BOOST DRIVE

Three automobile loads of Dixon men who are interested in the success of the Jewish Relief drive which will be conducted all next week left early this morning for a tour of the southern part of the county to enlist the enthusiastic aid of the township workers in these communities.

FIRST MEETING OF MENS' CLUB TO BE HELD TUESDAY EVE

One of the first numbers on the fall and winter program of the local Y. M. C. A. is announced today by Secretary DerKindren, O. O. Stanchfield, who has just returned from India, will deliver an address upon the subject, "The New Reconstruction Movement in India," at the association tomorrow evening. This is the first number to be heard by the Men's club of the association and the Ladies' Auxiliary will serve a banquet at 6:30 to be followed by the address. The association quartette will entertain with several numbers.

The speaker on this occasion is a man who is a graduate of the University of Michigan, who had given his life to the study of rural problems in America, went out to India in 1913 to carry the hopeful message of rural reconstruction to the Indian farmers. His address is along the lines of rural reconstruction. Mr. Stanchfield tells how in village after village where conditions existed almost unthinkable for human beings to live in, are being transformed by the practical methods of thrift, education, cleanliness and Christian living. The telling part of this service which Mr. Stanchfield has rendered is the planting of the idea and method in the hearts and lives of college trained Indian men.

Members who desire reservations for this interesting address are requested to telephone 1039 for seats for the banquet.
